INTRODUCTION AND WHY THIS COURSE

Hello! My name is Sneha. Tadepalli. I am from Guntur district of Andhra Pradesh. I did my graduation in B.tech from Gvr&s college , Guntur district . I secured 7.6 Cgpa in my engineering. i did my intermediate in Sri Chaitanya college from Guntur. I did my schooling in Sri Kondaveedu public school from Guntur. Currently I am pursuing data science course from Edyoda digital university. We are three members from our family father, younger sister and me. Coming to my strengths are I am honest, punctuated, self-motivated, hardworking also a quick learner and easily adaptable to the new environment. My hobbies are reading books, browsing new things on internet.

My short-term goal is to get a job in a reputed company in which I can grow my skills and get more knowledge which helps me in future. My long-term goal is to become a more responsible and knowledgeable personality and achieve a good position in a company.

Coming to the course I joined in a data science program because I think that there is a good scope for that in future and also I am interested in python language and also it is easy to learn when compared to the other programming languages in my opinion. This data science is constantly evolving nowadays and which is undergoing developments and thus it has a abundant opportunities in the future and also as it is a upgraded course which has become latest technology in now a days. I think this course is very useful for me and I can improve my skills in this more and I can secure a high paid job opportunity with these skills and knowledge
